DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Applicant's Amendment dated January 25, 2007 in response to USPTO Non-Final Office Action dated October 30, 2006.

The cancellation of claims 4-6,10-12 and 17; the amendments to independent claims 1, 7 and 13 now incorporating the 'objected to' limitation of cancelled claims 6 and 12 in said independent claims 1, 7 and 13, the addition of new claims 18 and 19 and the merit of Applicant's remarks regarding claims 18 and 19 are sufficient to place the application in a condition for allowance as set forth hereinbelow.

Allowable Subject Matter

- 2. Claims 1-3, 7-9, 13-16 and 18-19 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

Relative to claims 1, 7 and 13, the major difference between the teachings of the prior art to record (Pub. No. US 2002/0140643, Sato and USP 6,144,584, Kunori et al.) and that of the instant invention is that said prior art of record **does not teach** a structure wherein the at least conductive layer covering the insulation layer and electrically connected to the source line via openings, such that the conductive layer and at least the part of the source line are connected in parallel; and wherein the source line comprises a major source line to connect with the source and a plurality of branch lines to supply the power to the light emitting diode of each pixel, and the conductive layer comprises at least a conductor located over the branch lines.

Application/Control Number: 10/707,012

Art Unit: 2629

Regarding claim 18, the major difference between the teachings of the said prior art to record and that of the instant invention is that said prior art of record does not teach a structure wherein the source line comprises a major source line to connect with the source and a plurality of branch lines to supply the power to the light emitting diode of each pixel, and the conductive layer comprises at least a conductor located over the major source line.

Regarding claim 19, the major difference between the teachings of the said prior art to record and that of the instant invention is that said prior art of record does not teach a structure with an insulation lay on the source line, the insulation layer having a plurality of openings exposing the source line; and a conductive layer covering the insulation layer and electrically connected to the source line via the openings such that the conductive layer and at least the part of the source line are connected parallel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's 4. disclosure.

To Respond

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vincent E. Kovalick whose telephone number is 57,1-272-7669. The examiner can normally be reached on Monday-Thursday 7:30- 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala can be reached on 571-272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
